- **Library Activity No. : - 4**
- **Date: 5<sup>th</sup> July 2025**
- **Time : 10.45 am to 11.45am**
- **Name of Activity: Presentation on Journals & E-Databases**
- **Organized by: Central Library, AMAMCH**
- **Prepared by: Miss. Hempushpa M. Kumbhar , Librarian**

## ➤ **INTRODUCTION**

The purpose of this Library Activity report is to document the efforts and impact of our Presentation on Journals & E-Databases Activity. An integral part of our initiative is to introduce 1st Year students to the Journals & E-databases available in their subjects. Our main goal is to encourage students to use library resources.

## ➤ **ABOUT THE ACTIVITY :**

This library activity was organized for the **BAMS First Year** students of Ashokrao Mane Ayurvedic Medical College and Hospital, Wathar Tarf, Vadgaon. The students were given the task of finding the name of Journals & E-databases especially for Medical Field. For this, the Librarian Miss. Hempushpa M. Kumbhar & Assistant Librarian Miss. Shailaja K. Magdum demonstrated students how to search journals & E-database in the previous library hour lecture.

The students were given a week to complete the assignment. They were asked to write the name of the journal, its publication, frequency and scope on an

assignment paper. On July 5<sup>th</sup>, the students gave a presentation during library hour on how to search e-databases and find articles on them.

➤ **Challenges & Solutions:**

There was a problem with internet connectivity & Due to lack of databases subscription we could not search the complete database but we carried out this activity very effectively. The students were introduced to the printed journals available in the library.

➤ **Conclusion & Recommendations:**

A library activity called **Presentation on Journals & E-Databases** was organized for the First year students at Ashokrao Mane Ayurvedic Medical College and Hospital, Vathar Tarf, Vadgaon. The presentation on journals and e-databases not only introduced the students to journals but also how they are useful for studies. If library activities in the future also receive similar response from all, the library resources will be utilized to the maximum.
